

Climate Chaos

Day 5 Morning session: Spreading the message

Activity 1: What have we learnt and what do we still want to know?

Time required: 30 minutes

You will need

- The two flipchart sheets from Day 1: 'Climate change – what we know' and 'Climate change – our questions'

Aim

- To recognise and acknowledge the learning that has taken place.
- To identify any remaining gaps and decide what to do about them.

What to do

Return to the two flipchart sheets from Day 1. Remind the class of how much they added to the 'what we know' sheet on Day 1.

Go through the questions on the 'Our questions' sheet. Put a tick by any of the questions that the children now feel they can answer (you don't need to discuss all the answers) and a cross by any that they still don't know the answer to. Draw attention to how much they have learnt. Go back to the questions with a cross by them.

Can they research answers to these questions? (If so, ask for volunteers.)

Are there any questions that they are unlikely to be able to find answers to? If so, try to tease out the reasons (e.g. nobody knows the answer; it is too complicated; it was not a good question; it would take too long; etc.)
