How did you hear about the Video Change programme?

Have you been involved in campaigning before? What issues are you passionate about?

Have you used online video before? If so - how?

(For example, have you ever made a clip and uploaded it to YouTube, or do you often share online videos with your friends? You can tell us as well about any experience you have got using video offline as well.)

What do you hope to get out of taking part in video change?

Are you available to give between two and five hours a week to participating in course tasks and reflective discussions between 25th June 2008 and 6th August 2008?

What video equipment do you have access to?

You don't need anything advanced to take part - but it helps us to know what you might be using. For example tell us whether you would be planning to use a mobile phone that can take video clips, a web cam, a digital camera, digital video camera or analogue video camera that can get clips onto a computer. Most computers come with free video editing software (Windows Movie Maker on PCs and iMovie on Macs) - if you have access to other editing software that you might plan to use during the course, let us know here as well...
