

Climate Chaos

Day 5 Morning session: Spreading the message

Activity 3: Designing our presentations

You will need

Whatever materials and equipment the groups need to present their ideas in their chosen way

Aim

To sum up and communicate what they have learnt about climate change.

What to do

Ask the groups to work in their own way on their presentations.

Try to ensure that they are enabled to carry out what they have planned – e.g. put up their display, photocopy their leaflets to take home, send their letters, book a slot for them to make their assembly presentation.
