**WE
WON'T
LIVE
WITH
POVERTY**

**When it comes to solving the climate crisis,
big businesses and politicians promise the world.**

But time after time, leaders have refused to step up
and make the changes we all need to see. And every
second that they fail to act, people suffer and die.

Use this postcard to give world leaders a wake up call.
Write your message, then share it on your socials, pin it on
your noticeboard, post it to your MP. Spread the word however
you want: **we won't let our leaders sleepwalk into disaster.**
